

# Clarendon Hills Park District Maintenance Facility and Recreation Center

The Clarendon Hills Park District unveiled plans for a 13,000 square foot, \$3 million, maintenance/recreation facility to be built in Prospect Park. The plans include a six-bay vehicle garage and multi-purpose space. The Park District has applied for a state of Illinois PARC Grant, which may provide up to 75% of the cost of the facility. The Park District has also stated it would make the commitment to reissue bonds in 2015 and extend the debt service to taxpayers to fund the project.
